

VENSON ELECTRIC PVT. LTD.

AN ISO 9001 COMPANY

"EMPOWERING LIVES"

VISION : "Empowering Lives"

MISSION : " To Improve 60 million lives by the year 2021 "

Venson Electric Pvt. Ltd. the flag ship company of **Venson group** was established in the year 1973 as a small scale industry for the manufacture of custom built control and protection equipments, low and medium voltage control panels.

Starting on a modest note in 1973, **Venson** has recorded a steady growth for more than . four decades. We are one of the leading manufacturers and suppliers of Control . and Relay panels for voltages up to 400 kV. Venson has supplied its products for many important projects/ substations in the country and abroad, enjoying an excellent market reputation amongst EPC contractors and Power Utilities.

Venson has geared up to meet the challenges both present and future, in the field of power generation, transmission and distribution by strengthening its infrastructure in Engineering and Manufacturing. The highly competent team of **Venson** engineers are capable of providing right solutions for all requirements in control and protection of electrical systems. The company has a state of art manufacturing facility in Bangalore which can cater to the growing demand for the Control panels.

Venson has set an ambitious growth plan for the next five years. It has recently partnered with iGrid T&D Spain for its range of RTU, Gateways and HMI software for SCADA. Venson has successfully implemented multiple SCADA projects upto to 400 KV for many utilities including TanTransco, MPPTCL, AEGCL etc

HV & EHV PRODUCTS

- Control & Relay Panels System Voltage upto 400 K.V for Lines, Transformers, Feeders & Capacitors.
- Generator Control & Relay Panels, Metering & Synchronising Panels.
- Bus Bar protection Panels.

SUBSTATION AUTOMATION :

- Complete Design, System Integration, installation, Commissioning & Testing of Substation Automation Systems.
- Implementation of SCADA
- RTU based Solution
- Automatic data logging system
- Control Center solution

Brand Venson

- Over 4 decades of experience in the manufacture of Protection and Control equipments
- An ISO 9001: 2015 company
- Approvals from most of the utilities in India and consultants including PGCIL, NTPC, MPPTCL, CSPTCL, PTCUL, HVPNL, PSTCL, DTL, MahaTransco, TanTransco and many more
- Highly capable engineering team
- Centre of Excellence for Automation and SCADA
- State of the art manufacturing facilities at Bangalore with a capacity to manufacture over 6000 panels per year
- Complete Control & Relay panel components including high-end communicable relays manufactured within Venson Group thus assuring customers on timely deliveries
